

2012 HYUNDAI **SANTA FE**

**UNLIMITED POSSIBILITIES.**

LIMITED IN MOONSTONE SILVER

## 2012 SANTA FE **REFINED VERSATILITY**

---

It was designed from the outset with a singular purpose in mind: Do it all. Without compromise. And look good doing so.

The 2012 Hyundai Santa Fe has arrived on a mission to impress at every turn, with fluid lines that convey confidence. Composure. And a taut, dynamic stance that implores you to twist the ignition key. Two state-of-the-art engines are available, each delivering exceptional fuel economy with brisk get-up-and-go.

Santa Fe comes in three distinct trim levels: The eco-efficient GLS, the sporty SE and the well-equipped Limited. Every model couples plenty of hauling power (up to 3,500 pounds on SE and Limited V6 models) with crisp, nimble handling. Each presents a spacious interior whose high-quality materials and fit-and-finish craftsmanship are as evident as its modern-day conveniences.

Complimenting Santa Fe's sleek styling is a long list of award-winning safety features and America's Best Warranty, which adds security and peace-of-mind to every Santa Fe we build right here in the USA.

**276**<sup>HP</sup> **26**<sup>MPG</sup>

276 HP and 26 MPG estimates from Santa Fe 3.5L V6 engine, 26 MPG is a highway rating.

LIMITED AWD WITH NAVIGATION PACKAGE IN BEIGE LEATHER

## LIFE JUST SEEMS TO FIT IN A SANTA FE.

The only thing constant today is change. Shifting family schedules require a vehicle that can keep up. Fortunately, when there's a Santa Fe parked in the driveway, life just seems to fit. Inside, a tilt-and-telescopic steering wheel places Bluetooth® hands-free phone, audio and cruise controls at your fingertips,<sup>1</sup> while iPod®/USB/aux jacks let you plug into your personal playlists.<sup>2</sup> Up top, versatile roof rails let you tote the gear you need for your next adventure.<sup>3</sup> Choose Santa Fe SE, and an 8-way power driver seat lets you dial in comfort with power-adjustable lumbar support. Move up to Santa Fe Limited, and you'll find leather seating surfaces with heated front seats. A 605-Watt Infinity® Logic 7® Surround Sound AM/FM/SiriusXM™/6-CD changer audio system with 10 premium speakers.<sup>4</sup> Dual-zone automatic temperature control with a CleanAir Ionizer. And a power glass sunroof that reveals wide patches of blue sky. Life is good in a Santa Fe.

### VERSATILE SEAT CONFIGURATIONS

A wide track puts the Hyundai Santa Fe near the head of its class in roominess. More than 108 cubic feet of passenger volume can be configured to comfortably accommodate five on a family road trip, make a haul of home furnishing purchases...and much more.

### HOMELINK®

Garage doors, gates, home lighting and security systems can all be operated at the touch of a button with HomeLink, which is integrated into Santa Fe Limited's auto-dimming rearview mirror.<sup>5</sup>

### ADVANCED NAVIGATION

Available touch-screen navigation does more than plot your course and respond to voice commands. It also offers up points of interest, delivers XM NavTraffic® updates and connects with a rearview camera to improve safety and ease parking in tight spaces.<sup>6</sup>

<sup>1</sup>The Bluetooth® wordmark and logos are registered trademarks owned by Bluetooth SIG, Inc., and any use of such marks by Hyundai is under license. Other trademarks are those of their respective owners. <sup>2</sup>iPod® is a registered trademark of Apple Inc. <sup>3</sup>Roof side rails optional on GLS model. <sup>4</sup>Infinity® is a registered trademark of Harman International Industries, Inc. <sup>5</sup>HomeLink® is a registered trademark of Johnson Controls, Inc. <sup>6</sup>SiriusXM™ Satellite Radio and XM NavTraffic® require a SiriusXM subscription, sold separately after complimentary introductory period. All fees and programming subject to change. Traffic and weather channels only available in select markets, and SiriusXM service only available in the 48 contiguous United States. See your dealer for details. The SiriusXM name is a registered trademark of SiriusXM Satellite Radio Inc. All other trademarks are property of their respective owners.

## A HEART FULL OF SMARTS.

While the engine is widely considered to be the heart and soul of a vehicle, it's easy to see why the 2012 Santa Fe's two powerplants might be considered the brains as well. Our 16-valve, all-aluminum Theta four-cylinder engine employs Variable Intake System and Continuously Variable Valve Timing technologies to deliver up to 28 mpg on the highway with a ULEV emission rating.<sup>1</sup> Santa Fe's 3.5-liter V6 goes even further, hustling from 0-60 mph in 7.5 seconds<sup>2</sup> while generating 276 horsepower with an equally stellar 26-mpg highway rating. Power is transferred onto the pavement through a 6-speed SHIFTRONIC<sup>®</sup> automatic transmission and 18-inch alloy wheels on SE and Limited models. Available All Wheel Drive routes this power to the wheels with the best traction at the press of a button, while an advanced braking system with new Downhill Brake Control helps navigate steep descents with confidence.

### TIGHT TURNS, NO WORRIES

Santa Fe's versatile suspension geometry and wide track width enable greater turn angles and a 35.4-foot turning radius that ranks as one of the best in its class – perfect for times when you're trying to scoop that last parking spot at the mall.

### PLENTY OF PULL

A Trailer Prep Package (standard on SE and Limited V6 models) includes a transmission cooler, upgraded radiator and trailer pre-wiring, all of which enable Santa Fe SE and Limited V6 models to tow up to 3,500 pounds.<sup>3</sup>

### SMOOTH PRECISION

Santa Fe features a precisely tuned, fully independent suspension that improves dynamic control as effortlessly as it swallows bumps in the road. Power-assisted rack-and-pinion steering also contributes to the Santa Fe's nimble feel behind the wheel.

### 6-SPEED AUTOMATIC TRANSMISSION

A 6-speed electronically controlled automatic transmission offers state-of-the-art shifting, seamlessly matching engine speed to the appropriate gear for each driving condition.

<sup>1</sup>EPA estimates for comparison only. Your actual mileage will vary with options, driving conditions, driving habits and vehicle's condition.

<sup>2</sup>Edmunds.com/hyundai/santa-fe/2011. <sup>3</sup>See the towing guide in your Owner's Manual for proper use.

LIMITED AWD IN SIERRA RED

## THINK SANTA FE IS A TOP PICK? YOU'RE NOT ALONE.

The Hyundai Santa Fe has consistently been chosen as a Top Safety Pick by the Insurance Institute for Highway Safety (IIHS).<sup>1</sup> What drives this exceptional safety record? Rugged unibody construction, which contributes to Santa Fe's exceptional crash test ratings and sure-footed handling. Front and rear crumple zones, side-impact door beams and hood-buckling creases, which absorb the energy of a collision and help keep the passenger compartment safely intact. Six airbags are also onboard: Two in front, two front-side and two roof-mounted side curtain airbags with rollover sensors.<sup>2</sup> To help you avoid collisions in the first place, Santa Fe is packed with active safety advances like Electronic Stability Control and a Traction Control System that both work in the background to keep you faithfully on course.

### TRACTION AND CONTROL

Electronic Stability Control (ESC) and Traction Control System (TCS) work in tandem to help prevent skids and maintain optimal traction. ESC compares the driver's intended course to the vehicle's response and, when needed, adjusts throttle inputs and brake pressure to individual wheels to reduce plowing and fishtailing.<sup>3</sup>

### BLINK-QUICK BRAKING

Emergency braking can cause your wheels to lock and skid, resulting in a loss of steering control when you need it most. Santa Fe's standard ABS includes Brake Assist, which applies maximum braking force the instant a panic stop is detected, and Electronic Brake-force Distribution, which balances braking forces at each wheel to maintain traction during dynamic load transfers.

### ACTIVE HEAD SUPPORT

Even the best drivers can do little to avoid rear-end collisions. Active front seat head restraints move forward and up during a rear impact to help minimize whiplash.

### 360-DEGREE SAFETY

When its sensors detect a rollover is imminent, Santa Fe triggers side curtain airbags and seatbelt pretensioners to help protect passengers. According to the IIHS, the combination of side and curtain airbags can reduce fatalities by 52% in SUVs.

<sup>1</sup>Based on Insurance Institute for Highway Safety 40-mph frontal crash test, 31-mph side-impact test, 20-mph rear-impact test and availability of Electronic Stability Control (ESC). <sup>2</sup>The Supplemental Restraint System (SRS) is designed to work with the 3-point seatbelt system. The SRS deploys in certain frontal and/or side-impact conditions where significant injury is likely. The SRS is not a substitute for seatbelts, which should be worn at all times. Children under the age of 13 should be restrained securely in the rear seat. NEVER place a rear-facing child seat in the front seat of a vehicle that has a passenger-side airbag. <sup>3</sup>Electronic Stability Control (ESC) cannot control your vehicle's stability under all driving situations. ESC is not a substitute for safe driving practices. No system, no matter how advanced, can overcome physics or correct poor driving. The driver is always responsible for controlling the vehicle and must use caution to avoid loss of control in all driving conditions. Speed, road conditions and driver steering input will affect whether ESC can help prevent loss of control. See Owner's Manual for details. The Traction Control System (TCS) is meant to enhance conscientious driving habits and is not a substitute for safe driving practices.
